

Welcome to this month's summary of recent news on topics relevant to the [Northern Hub's](#) goal of supporting sustainable development in northern Australia. These clips aim to facilitate cross-sector & cross-region knowledge sharing, & more informed conversations about the future of northern Australia. They're an informal 'round up' of what comes across our desks rather than a systematic collection, so please send any relevant news in & let us know what you think. Cheers & best regards, Clare Taylor, Jane Thomas & Patch Clapp.

Please note

- This is an informal compilation & views don't necessarily reflect those of the Northern Hub or affiliates
- We welcome your input & feedback to help us improve the Roundup
- We focus on the semiarid & tropical parts of northern Australia (i.e. don't include Central Australia, Pilbara or Lake Eyre Basin, etc)
- Increasingly, online media outlets are subscriber-only (e.g. Cairns Post, The NT News, Townsville Bulletin, The Australian) so this limits the outlets we are able to link to
- Previous news roundups are available [here](#)
